THE HUMAN DESIGN SCHOOL

### December 1993

Photos by Chaitanyo

### October 1994

Throughout the years, the trainings with Ra in Taos have been great and remarkable gatherings of people. We look forward to this year's group and to meeting old and new friends at the classes.

We find that the Human Design System has introduced an extraordinary clarity into the dynamic of our own relationship and into other relationships we have. We're glad to announce that the Relationship weekend, an additional course given by Ra this year, is now open to everyone who has participated in a Basic training.

In many ways we see this year's events as the completion of a cycle and hope that as many friends of Human Design as possible are coming to meet.

# The Planetary PROGRAM

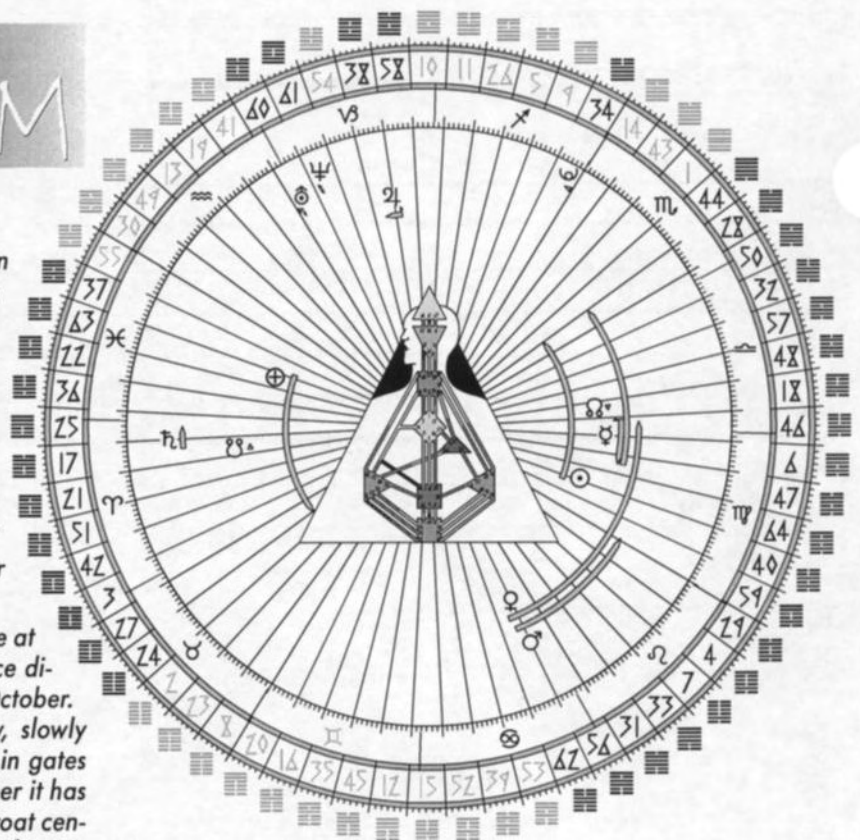

by Zeno

**T**he wheel on the right shows the planetary motion and what gates the planets are activating during September and October. While the Sun transits from Virgo through Libra into Scorpio, gates 40 through 44, the Earth, opposite the Sun, transits from Pisces through Aries into Taurus, gates 37 through 24. Sun and Earth activate all 384 lines at about the same time every year. From the end of September until the beginning of November, the Sun moves through every gate of the Spleen. This is a seasonal focus on the "feel good" center, the body's immune system and awareness center of instinct and intuition.

On the wheel find Mercury close to the Sun, retrograde at the beginning of September and then going direct. Once direct, it follows the Sun, conjuncting at the end of October. Venus, who has been far away from the Sun recently, slowly catches up. It starts September in conjunction with Mars in gates 62 and 56 and soon moves ahead. By the end of October it has gone twice as far as Mars, who spends September in Throat center gates, adding vitality and aggression to this center of manifestation and expression.

The further a planet is from the Sun, the longer it spends in a gate and the more powerful its influence is. Jupiter spends all of September in gate 58, defining the Judgment channel with the North Node in gate 18. Jupiter's motion goes direct September 3, so by October 6, it returns to gate 38, the fuel for struggle and stubbornness. Look at the wheel to find Jupiter at the top. Its motion is relatively slow.

Saturn is retrograde until December. It begins September in conjunction with the South Node in gate 17, conditioning opinions and logical thinking. Everyone is convinced of the rightness

The planetary movements in September-October (except Moon).

of their opinions (unless you're aware of the mechanics, of course). At the end of September Saturn is back in gate 25, Innocence, where it remains for the rest of the year. Take care of your heart. We're all vulnerable to shock with Saturn in the channel of Initiation.

Uranus is also retrograde, now in gate 60, Limitation, the Root center gate in the Mutation channel. See on the wheel how little Uranus' motion is. Its closeness to Neptune has been an interesting play as both went retrograde this summer, returning us to the lessons of gates 61 and 60. Gate 60's activation has been nearly continuous since 1995, and will be activated by Neptune until the

by David Sherman

- Sun 1 Tonight the Moon is in Taurus gate 24. Neptune is retrograde in 61, Inner Truth, defining channel 61-24, Awareness.
- Tue 3 Gemini Moon in Throat gate 20, Contemplation, defines integration channel 34-20, Charisma, with Pluto in gate 34, The Power of the Great. Pluto defines the integration channels at least three times a month (20, 57, 10) for the next 16 months.
- Sat 7 Moon in Cancer gate 62, Preponderance of the Small, in definition with Saturn, still retrograde in gate 17, Following. Then Moon conjuncts Mars in gate 56, The Wanderer.
- Tue 10 With Mercury retrograde in 46, Pushing Upward, the Leo Moon in gate 29 defines channel 29-46, Discovery.
- Wed 11 An interesting mechanic: 64, Before Completion, and its harmonic gate 47, Oppression, are consecutive gates in Virgo. With the Moon in 64 and Sun in 47, we have a Sun-Moon definition leading into a conjunction and New Moon. (New Moon is always Moon conjunct Sun.)
- Fri 13 Moon conjuncts Mercury in gate 46, then the North Node in gate 18.
- Sat 14 Moon in 57, The Gentle, with Pluto in 34, defining channel 34-57, Power (see Tue 3).
- Tue 17 Moon conjuncts Pluto in gate 34.
- Fri 20 Moon in gate 10, Treading, defines another integration channel with Pluto; this time, Exploration.
- Sat 21 Moon conjuncts first Neptune in 61, then Uranus in 60.
- Mon 23 The Aquarius Moon in 13, The Fellowship of Man, and Mars in gate 33, Retreat, define channel 33-13, The Prodigal.
- Wed 25 Pisces Moon in gate 63, After Completion, defines channel

## September 26: Total Lunar Eclipse

Look forward to clear skies on the evening of September 26 to witness the last total lunar eclipse to be seen from America until the year 2000.

Lunar eclipses happen during full moon, when the moon is opposite the sun and travels through the shadow cast into space by earth. They are visible only from the night side of earth and last three to four hours. Refracted light from earth's atmosphere causes the moon to remain faintly visible through earth's shadow even during the height of a total eclipse.

On September 26, the sun sets at about 6:45pm and the full moon rises at the same time. (All following times are Mountain Daylight; subtract an hour for PDT, add one or two hours for CDT and EDT.) By 7:15, the moon enters earth's shadow and gets gradually more and more obscured until, an hour later, totality begins. It lasts for more than an hour. By 9:30, the moon starts to reappear on the other side of earth's shadow until it's free and full again by 10:30. People from California through the Northwest and Alaska are on the fringe of visibility and will be able to see only part of the process just after sunset. The farther east you are, the sooner night starts, and therefore you are able to see the entire show. Hint: it's a good time to be in Taos.

In terms of Human Design, the event happens while the Sun is in gate 18, Work on What Has Been Spoilt, joining the North Node in the gate of correction. Opposite the Sun, both Earth and Moon are in gate 17, Following, conjuncting with South Node and Saturn in the gate of opinions. Read more about these gates in *Health and Human Design* on page 4.

Chaitanyo ■

63-4, Logic, with Venus in gate 4, Youthful Folly.

- Thu 26 The Aries full Moon conjuncts Earth, Saturn and South Node in gate 17, Following. This is a total lunar eclipse peaking at 20:55 MDT. See box on this page.
- Sat 28 Channel 60-3, Mutation, defined by the Moon in 3, Difficulty at the Beginning, and Uranus in 60, Limitation.
- Sun 29 Early this morning the Taurus Moon in 24 defines channel 61-24, Awareness, with Neptune in gate 61.
- Mon 30 September ends with another integration channel definition with the Moon in gate 20, Contemplation and Pluto in 34.

# HEALTH and Human Design

by Martin Grassinger

## 11. Therapy

**D**uring September and October the Nodes of the Moon are in lines 5 of gates 18 and 17. 18.5 is the only line in the Human Design System that mentions "therapy."

Both gates are in the Understanding circuit, with the themes of reason and logic, and, as a collective circuit, sharing. Both are also gates of awareness.

Therapy (18.5) is a spontaneous process of awareness, potentially healthy (Spleen), interactive, and serving the advance of the collective as "Work on What Has Been Spoilt."

Gate 18 is the Oedipus gate. In Greek mythology, Oedipus solved the puzzle of the Sphinx (2, 1, 7, 13), of what it means to be human. On his way there he killed an old man who stood in his way. Only later he found out that it was his father.

Gate 18 is the gate of fear of authority and in a sense also of "guilt." We owe to the realization of our lives the killing of inner authorities and the overcoming of the fear to install ourselves as our own authorities. Only then are we able to solve the puzzle and realize what it is to be human. Therapy means becoming aware of inner obstructions and judging whether they serve or hamper progress in life.

While gate 18 works spontaneously in the here and now, gate 17 functions in the mind, in past, present and future. A remark by an authority, uttered perhaps only once and a long time ago, can fix opinions for a lifetime and determine the way we think we have to go in life.

Gate 17 is visual and relates to the right eye. It is an image in our mind that is fixed and of which we have the opinion that we have to follow. The energy format of the Understanding circuit, 9-52, is not only the ability to focus, but also the energy to be neurotically fixed. In gate 17 are all the fixed mental images that we think have to guide our lives.

In therapy it is important to check each single image in detail as to whether it is serving or hampering life. The keynote of gate 17 says "Those who wish to rule must know how to serve." Only an image that serves must be allowed to rule.

For the next few months the task is to judge (18) the logical imprints (17) of the past (South Node) and to determine whether they are helpful for our future (North Node) or not.

In working with the Human Design System it is important to "kill" old patterns of thinking (inner authorities) because they are obstructions and unhealthy. The Human Design System offers an image that serves. It is "therapy" for everybody. ■

## The Planetary Program continued from page 2

end of 1998. This fuel for mutation is an evolutionary push that starts as an individual process, reproduces when successful, or dies out when not.

Pluto in gate 34, Power of the Great, is in direct motion, still in line 1, the Bully, for September. By October 1 it is in line 2, Mo-

mentum. Once again, look at the wheel to see Pluto. Pluto has been in gate 34 since November 14 of last year, and will remain there throughout '97.

Except for five days, the planets will bring us continuous definitions these two months. All nine centers and 12 of the 36 channels get defined, with emphasis on Root, Spleen and Sacral centers. ■
