News from the School

The Human Design School program this past September and October brought Ra to Taos where he gave five professional classes that were truly inspirational for everyone who attended. Great education in reading individual charts, relationships, sexuality, each gate through its center, and the larger framework of conditioning. These classes were the start of Ra's US schedule for the next three years to teach unique, professional level courses each only once. In 1998, he will visit twice, in March and October (see training schedule on page 4). Do your best to come to any of these classes you can. They won't be repeated.

The Revised Analyst Training

During the last four years, many students of Human Design have successfully gone through the Analyst training program. Most students agree that the Basic training material takes a good three months of study to really get comfortable with the language. The Basic training is a prerequisite for all other classes, but for Ra's professional level classes, students are better prepared if they already have a working knowledge of the circuits and the streams of awareness. They are essential knowledge for Human Design analysis and are the main subject of the Advanced training.

When Ra first taught the Advanced training for analyst certification, it was a pretty simplified overview of the gates and channels through the circuits. The general level of knowledge grew (and continues to grow) every year since America's first exposure to Human Design in the winter of '93. Accordingly, the Advanced training got more comprehensive each time Ra gave it. The last one he taught in October of '96, after which he delegated the teaching of the Advanced training both in Europe and here, so that he could spend his time going into deeper levels of knowledge. In the US, he passed this task to Zeno.

Four years of experience in training students to become professional Human Design analysts helped us to conclude that the Advanced training is better split into two shorter classes. The first will keep the name Advanced training and covers the circuits and streams of awareness. Though not a

prerequisite, it is recommended for taking any of Ra's classes. There is no test. We'll keep you posted on the correspondence version now in development.

The Analyst training is the name for what was originally the second half of the Advanced training. It is hands-on, with practice sessions, chart drawing, overview analysis and includes the analyst exam. This class prepares a student to go through the licensing process for professional Human Design analysis. Attendance is required. You know you're ready for the Analyst training and its exam when you can draw the Rave body graph from memory and know the names and keynotes of all the gates and channels.

16. Centered Being

The Centering circuit has two channels:

34 10 Exploration A design of following one's convictions

51 25 Initiation A design of needing to be first

Two motors provide energy to the G center from two sides: vitality from the Sacral center through gate 34, and willpower from the Heart center through gate 51. Pluto is activating gate 34 since 1995 and until this coming December 4. Saturn is in gate 51 since May of this year. At this time it is retrograde, leaving gate 51 on November 2 and returning there in January 1998.

Both channels are purely mechanical processes, without the presence of awareness. The convictions of channel 34 10 are not to be confused with the opinions of gate 17, which are purely mental. Convictions are one's bearing on self (G) and life (Sacral), and they are lived with great power (34).

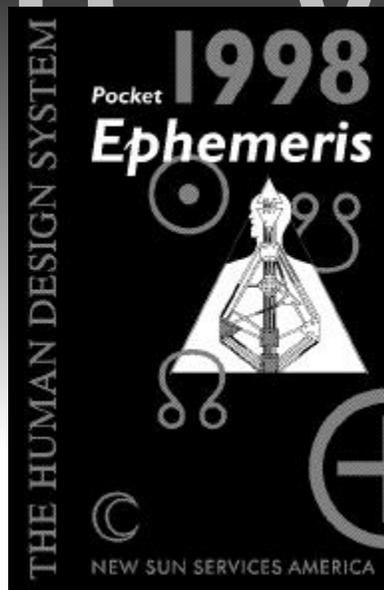

Demeanor, result of lived inner convictions, is biologically reflected in body posture, the bearing of the spine. Someone who has been able to live their vitality to its full extent is likely to have an erect, healthy spine. Conversely, many spine problems result from suppressed or bent vitality.

The need to be first, channel 51 25, has a relation to the upper part of the spine, the neck. Here, too, a motor is fueling the self: the willpower of the Heart center tempts many people to want to go through a wall head first (gate 51 is in Aries) and risk breaking their neck.

The meaning of Initiation, channel 51 25, is often confused with enlightenment. Gate 51 is described as the gate of the spiritual warrior, who comes in contact with the inevitable connectedness of everything a shock. However, on the mundane plane it helps to understand the mechanics: here, the self can be in contact with the ego, the I am with the I will. This union is beyond self-pity and arrogance (when the warrior becomes a fool). Each step on an individual's way of life is new and unique, has never been stepped before, and this is true for all of us.

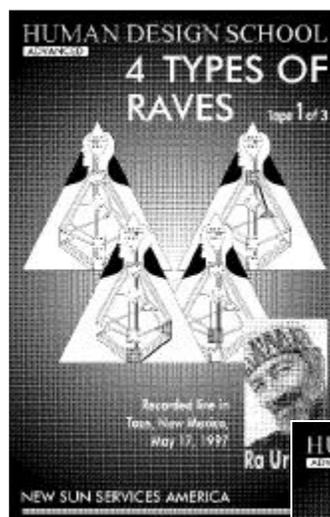

Like gate 14, gate 51 provides empowerment of direction. The additional energy and emotional, hormonal quality it gets from the Solar Plexus center through channel 37 40 is likely to override the healthy, instinctive awareness coming through channel 44 26, Surrender.

more training dates become known. However, it often happens that a Basic or an Advanced training is scheduled on short notice and doesn't make it into the newsletter in time. Basic trainings are offered by Chetan on Maui, HI, and by Don McKinney in Boulder, CO. Also, Zeno will travel for both the Basic and Advanced trainings when there's a minimum number of participants. Call to find out details if you are interested in trainings in your region.

The first Analyst training is scheduled in Taos for March 11-13. Prerequisites are the Basic and Advanced trainings.

Directly following it is the first of Ra's '98 classes, Sex part 2. Part 2 does not require that you attended Sex part 1. There, Ra took students to the Solar Plexus through its emotional streams as waves of desire, romance and touch that link the Solar Plexus to the Sacral center through channel 596, **Mating**, a design focused on reproduction. Part 2 looks at the other side, the Spleen, center for the immune system and feeling good, that connects to the Sacral center through tribal values, nourishment and caring in channel 2750, **Preservation**, a design of custodianship. This is a weekend course.

Ra then ends the winter with the Gray Course, the mystical cosmic fairy tales, cosmology according to the Voice. As with all his classes, this class will only be given once, but unlike the others, it will not be released on tape or transcription. You just have to be there.

In the fall, the Human Design School offers a special course indeed, the 384 lines as they cycle through the wheel, beginning in Aries, with gate 25, **Innocence**. This 11-day class has one day off in the middle. Mark your calendar to be in Taos when the leaves turn gold.

Teacher's training Spring 1999

For those students interested in the next Teacher's training, it is scheduled for Spring 1999. In order to attend, you must be a licensed Human Design analyst for at least one year. If you aren't licensed yet, plan to complete your licensing requirements no later than April '98.

Ra and Zeno in Los Angeles

Ra and Zeno return to Los Angeles for three weeks, February 14-March 8. Ra will give the Introduction lecture and be available for individual Rave readings. Ra's readings are \$350 in 1998. Pre-book by December 31 and get the 1997 price of \$300 for readings in Los Angeles, Boulder or Taos this upcoming February and March. (Requires a \$50 deposit.) Zeno gives the Introduction workshop evening, a Basic training, and the Advanced training in Los Angeles, with a guest lecture at both trainings by Ra.

Price Increase Correspondence Basic training

As of January 1, 1998, the Correspondence Basic training will cost \$350. Start before the end of the year and get the old price of \$320.

Q How long does the emotional wave take to go through its up and down cycle? Is it three days or weeks or hours? Exactly how long does it last? What triggers the wave?

A There is no specific time frame for the emotional wave. Generally the duration of the wave is dependent on the quality of the initiating event. The wave generated by a trivial event may last a few moments, whereas the comment of a lover may generate a much longer wave. The point however, is in understanding the mechanics of the emotional motor and by not attaching reasons to the wave, its power and duration is greatly diminished.

Q I don't have any Throat gates at all. How does this work?

A The absence of any Throat gates is rare. Obviously, unactivated, this will be a deeply conditioned center and speaking and doing will be inconsistent and conditioned by others, leading to frustration. The keys to understanding potential manifestation will lie in those gates whose harmonics are in the Throat. This will indicate the healthiest connections for manifesting. These individuals often have fine mimicry gifts and the capacity to learn many languages or accents.

Q What does a Solar Return reading show a person?

A Solar Return is a function of astrology. In Human Design, there is what is called a Rave Return. The Rave, the Human, returning to the same position in a new cycle. I call this technique weather forecasting, that is, the Rave Return prepares you for what you are going to meet in the coming yearly cycle. Like individual analysis, the Rave Return is logical and accurate and most important, beneficial.

BASIC TRAINING

The correspondence Basic training has allowed my learning to follow its own pace. Some lessons I moved through quickly, eager for the next step. Other lessons I have taken more slowly, savoring the information and applying it to the charts of people in my life. The more I learn about the Human Design System, the more it reveals its elegant complexity.
