The Commentaries: The 384 Lines of the Rave I'Ching

Once again, Ra was in top form for the professional classes this past March in Taos and delivered valuable in-depth information for all the students of Human Design who had the chance to be there. Ra says that these courses are a real treat for him as he is able to teach well-prepared students mature enough to understand and in his native language without being interrupted by a translator.

The series of unique courses continues this coming fall with **The Commentaries: The 384 lines of the Rave I'Ching**. Says Ra: The wheel of the Human Design System in its magic contains the story of being. The Commentaries is a journey around the wheel and a revealing of the genetic possibilities of the totality. For the student, the Commentaries is both a practical immersion in hexagram structure and the foundation for line interpretation in Human Design analysis.

This 11-day class (with a day off in the middle) is the most comprehensive description Ra will give on the gates with their lines and it is the only time it will be offered anywhere. We expect a high turnout and even people from Europe and Asia. It is time to plan ahead for this major event.

To qualify, you need to have completed at least the Basic Training, and it is recommended (but not required) that you take the Advanced training. The better educated you are in the basics the more you'll understand the depth.

If you have yet to take a class, we are offering a new starter package through May. It includes the correspondence Basic training, the Human Design System book, 98 HDS Pocket Ephemeris, from the Book of Letters, the new Introduction lecture and shipping for \$500. Take advantage of this now and be prepared for the Commentaries class this fall!

Advanced training by Correspondence

The correspondence Advanced training is a great new addition for learning Human Design. Students who've gone through this course loved it, and found it an easy way to complete the foundation knowledge required for Human Design Analysis. Take your time with the lessons, or

concentrate your study. It's up to you. Through the guided study sheets, you check yourself each step along the way.

This course fulfills the prerequisite for the Analyst training, the next one tentatively scheduled for mid-May.

Color

The latest generation of products now sport COLOR! The first application was used for the new correspondence Advanced training. It is very satisfying to see the clarity and enhancement possibilities. You can look forward to seeing more products and courses using color printing in the future.

There is a new computer-generated color chart now available as well. If you would like your chart printed on cardstock with the most up-to-date overview data, you can order directly from New Sun Services.

New Tapes

A new Introduction lecture tape is now available. It is a good quality recording, the Sedona audience was juicy, and Ra was in great form. Includes the introduction brochure.

You can now listen to readings by Ra for Princess Diana and

Timothy McVeigh. The tapes are in the style as though the person was there and neither assumes their fame. Beginners can get a good idea of what a reading is, and advanced students get examples of how Ra synthesizes the information contained in the Rave charts.

As a result of many requests, Ra started recording readings for clients in their absence. He agreed to continue this service even when he's not in America. If you would like your reading by Ra, you can order through New Sun Services. Price of \$375 includes the tape, your chart and shipping. Allow 4-6 weeks for delivery.

Analyst Education

A major focus this next year will be on continued education for licensed Human Design analysts. We plan to introduce license levels based on merit and course-specific skills and
