Schedule changes

The headline for the last newsletter read Ra moves to Taos. Since that time, many forces conspired to keep his time living in America short (see box). Ra and his family will return to Spain at the end of the Spring school.

Please note that the education schedule has been changed significantly. We know it is an inconvenience to many of you who make arrangements for taking time off work, flights and all the other issues and we apologize for giving you such short notice. We hope to see many of you anyway. Please let us know if we can help you with your class arrangements.

The Channels classes are now being held in consecutive days, extending the Spring School by two weekend days. These classes are open to Advanced trainees. If you've taken the Basic Training, now is the time to order the Advanced training by correspondence and be ready for these classes.

The Analyst education has been rescheduled in the Fall slots. Due to popular demand, the Sex Part I is now scheduled to follow the Analyst training, followed by the classes that are restricted to licensed analysts, including how to give a Rave return reading, and the Relationship readings classes.

The Channel classes in April

The professional classes explore specific aspects of the synthesis in greater detail. To date, the classes that were offered included The Nine Centers and last year the Commentaries on the 384 Lines, a major tour around the wheel, where each gate and its lines were described. This year, Ra gives classes on the final element, the Channels. Although students know the names and keynotes of these channels, how they work as transforming agents, the quantum for the gates, being more than the sum of their parts, has not yet been presented. We hope you can join us while Ra takes us on yet another journey of the magic and accuracy of the Human Design System. ■

Hello,

In October of last year after arriving with my family from Europe, my new son was delivered several months prematurely. Gratefully the child is very well but the financial cost has been enormous. As a manifestor it is never an easy task to ask for help. I am much more comfortable offering you a service. I am offering a new millennium package of 5 Rave Returns from 2000-2004. This package of readings would ordinarily cost \$1,875. The package is priced at \$1,500 for those of you who can pre-pay. I would appreciate your help.

Love Yourselfs,

Ra

Note from NSSA: These readings will not be administered by New Sun Services, so that all proceeds go directly to Ra. Your requests will be forwarded to him and he will then contact you directly.

John Travolta's Rave reading by Ra continues the series of readings of the famous and infamous. John is a triple split definition with a manifestor/generator combo and two projector aspects.

Q Is Human Design a cult?

A The Human Design System is an educational program. It is neither cult nor religion. There is no guru or ashram, there are no tithes or ceremonial practices. The source of Human Design was mystical but the application is mundane and professional. To provide the opportunity to clearly see and understand oneself and the training of those who wish to serve and educate others.

Q I'm gay. Is there anything in design that shows this in a chart? Is it genetic, meaning it can't be changed, or is it conditioned?

A I have dealt with the question of homosexuality many times and have worked closely with gays in Europe. Since the Human Design System is a logical system, it would be premature to make categorical statements without much more substantial evidence than I have seen up to now. That said, a

few things are clear. There are two kinds of homosexuals, those who are predisposed genetically and those who are conditioned. In both cases however, it is clear that the nurturing aspects of the first seven years of conditioning can contribute greatly.

In my experience, in the most general sense, all individuality is open to homosexual attraction or behavior, but specifically it can be seen through the channel 57 10. The 10th gate plays a major role in determining our behavior in the outside world and through that behavior how we express love. What is certain is that homosexual love is not about the sexuality, it is about love and about finding self love through being loved. The 57 10 says, we cannot survive without love and as either heretic or martyr, is ready to find love where it can in order to survive regardless of the form the sexuality takes.

The second type, the passive partners in gay relationships invariably have undefined Solar Plexus centers and have plainly suffered from emotional abuse. What is obvious is that none of this is specifically about sexual preference. In the gay community and paralleled in the straight community, the struggle is with self-hatred.
