-- Hua Ching Ni: The I Ching

Providing valuable resources has been our service to Human Design students for 11 years. In this constantly evolving role, it is our pleasure to announce the addition of an excellent reference: Hua Ching Ni's version of the I Ching "The Book of Changes And The Unchanging Truth.

Hua is from a family of I Ching scholars that passes on its wisdom since generations. This book is written in English, not a translation, but Hua's own, deep, 21st century take on the nature of change and permanence.

For people who have questions about the lines and hexagrams (gates), this is a definitive reference that gradually deepens your own understanding as to how lines are developed and nuanced by their position within the hexagram.

You will be surprised by how much there is to discover in the body graph when you look at it with the help of the compassion and true wisdom that radiates from this gem.

The book's 670 pages are bound in hard cover and cost only \$28 when purchased from zc design (plus \$6 shipping by media mail within the US).
